Corporate citizenship at Deutsche Post DHL Group is about giving back to the communities in which we live, work and conduct business. This is an integral part of our corporate responsibility strategy. As the world's leading transport and logistics company, we want to leverage our core competencies and the know-how of our employees in a way that makes a positive contribution to society and the environment. We collaborate closely with established partner organizations to ensure the maximum positive impact of our programs and activities.

The partnership between Deutsche Post DHL Group and Teach For All was established in 2010. Today, Teach For All's global network consists of over 48 independent, national partner organizations.
