

## Deutsche Post DHL Group offers future perspectives for more than 2,000 young people.

- Offer in 2019 increases to 21 different apprenticeships and 18 integrated degree programs.
- Completely new apprenticeship offer E-Commerce as well as a Business Informatics - Data Science integrated degree program

**Bonn, 22.11.2018:** With around 520,000 employees, 220,000 of whom in Germany, Deutsche Post DHL Group is one of the largest national and international employers. The company offers 21 different apprenticeships and 18 integrated degree programs in a variety of careers, including mechatronics technician, IT specialist, multiple administrative and business management professions, professional drivers and warehouse clerks. More than 2,000 apprenticeships will be offered for the 2019 training year. Deutsche Post DHL Group is the largest provider of vocational training in our sector: a completely new addition to DPDHL Group's range of apprenticeships this year is the integrated degree program in Business Informatics - Data Science and the e-commerce apprenticeship. The apprenticeship is part of a new occupational profile that includes both commercial basics as well as analytical and marketing focus points. The apprenticeship prepares people specifically for an activity in the growing e-commerce industry. For example, product analysis and selection for an online shop, storage of goods, market analyses, book-keeping and marketing strategies such as online advertising are taught. The training period is three years and concludes with a qualification from the *Industrie- und Handelskammer* (IHK - German chamber of commerce).

Deutsche Post DHL Group is an attractive training company for applicants. "Deutsche Post DHL Group offers a broad spectrum of training. It is very important for us to be able to offer as many young people as possible future prospects," says Thomas Ogilvie, Board Member for Human Resources and Labor Director at Deutsche Post DHL Group.

Around 36,000 young people applied for a training position with Deutsche Post DHL Group in the 2018 training year. The application process is already starting again for 2019. The offers are generally close to home, whether in cities such as Frankfurt, Hamburg and Munich or in rural regions. We are looking for applicants for "hands on" professions as well as for office professions, who should above all have qualities such as commitment, service orientation and reliability. All types of school-leaving qualifications are welcome. Those interested can find
