

## **DHL announced as global logistics partner of the Jaguar I-PACE eTROPHY Championship**

- **DHL delivers the Jaguar I-PACE eTROPHY race series to Mexico City**
- **The Jaguar I-PACE eTROPHY is the world's first all-electric production-based series and supports the ABB FIA Formula E Championship**
- **Nine races remaining until Jaguar crowns winner of inaugural series**
- **DHL has been Jaguar Land Rover's lead logistics partner for 23 years**

**February 14, 2019, Mexico City:** Jaguar Racing has announced a partnership with the world's leading logistics company, DHL, to act as Global Logistics Partner for the new Jaguar I-PACE eTROPHY series.

DHL will organise the logistics and transport all of the Jaguar I-PACE eTROPHY racecars, ABB charging systems, garages, spare parts and technical equipment. DHL has more than 35 years of experience in motorsports logistics, including the job of transporting the freight for the ABB FIA Formula E Championship.

In its inaugural season, the eTROPHY will visit nine cities around the globe. It is the world's first all-electric championship for production-based cars.

Jaguar Racing and DHL jointly developed a multi-modal logistics solution encompassing land, sea and air freight to deliver the Jaguar I-PACE eTROPHY racecars and championship equipment, safely, efficiently and on-time. Through early consultation, DHL was able to help reduce the championship's freight requirements from two aircrafts to one Boeing 747-800 freighter. The two brands are working together to develop innovative and bespoke packaging solutions to minimise freight and thus improve the championship's ecological footprint.

Marion Barnaby, Championship Manager, Jaguar I-PACE eTROPHY said: "We are proud to welcome DHL as the Global Logistics Partner of the Jaguar I-PACE eTROPHY series. As we follow the races around the world, the role of DHL is imperative to the success of our race series. They are global leaders in logistics and with an international championship travelling to four continents we have the best possible partner."

Antonio Arranz, DHL Express Mexico Country Manager, added: “We’ve enjoyed a successful partnership with Formula E since September 2013 and it was natural to extend this partnership to include the Jaguar I-PACE eTROPHY. It’s a fantastic opportunity to be driving the electrification journey with Jaguar, organising the logistics and shipping all of Jaguar’s eTROPHY equipment around the world.”

The extended collaboration builds on the 23-year relationship between DHL and Jaguar Land Rover in the production and transport of its vehicles from manufacturing plants to customers around the world.

Jaguar made history with the debut of the world’s first all-electric production based championship, which took place in the historic surroundings of Ad Diriyah, Saudi Arabia, in December 2018.

proven commitment to corporate responsibility and an unrivalled presence in developing markets, DHL is decisively positioned as “The logistics company for the world”.

DHL is part of Deutsche Post DHL Group. The Group generated revenues of more than 60 billion euros in 2017.

## **Jaguar I-PACE eTROPHY**

After becoming the first premium manufacturer to enter the ABB FIA Formula E Championship in 2016, Jaguar has now created the world’s first production battery electric vehicle race series – the Jaguar I-PACE eTROPHY. The history-making championship is the official support race to the ABB FIA Formula E Championship, with up to 20 cars taking to the grid from season five onwards. The series supports the launch of the Jaguar I-PACE, Jaguar’s first battery electric vehicle, and reinforces Jaguar Land Rover’s future electrification strategy, commitment to electric street racing and ‘Race to Innovate’ mission. Championship partners include Official Logistics Partner DHL, Official Tyre Supplier Michelin, Official Charging Partner ABB, Technical Partner Sabelt, Official Clothing Supplier One All Sports and Official Racewear Supplier Alpinestars.
