Formula 1 final in Abu Dhabi: DHL Awards go to World Champion Lewis Hamilton and Aston Martin Red Bull Racing

- DHL Fastest Lap Award won for the sixth time in a row by a Mercedes driver
- Lewis Hamilton now holds the record with four DHL Fastest Lap Awards to his name
- Aston Martin Red Bull Racing again wins DHL Fastest Pit Stop Award and sets three world records in a single season

Abu Dhabi/Bonn, November 29, 2019: At the upcoming FORMULA 1 ETIHAD AIRWAYS ABU DHABI GRAND PRIX 2019 on December 1, logistics partner DHL again presents two awards: the DHL Fastest Lap Award to the driver with the most fastest laps and the DHL Fastest Pit Stop Award to the team that most consistently achieved the fastest pit stops over the course of the season. The DHL Fastest Lap Award this season goes to Lewis Hamilton, who drives for the Mercedes-AMG Petronas Motorsport team and was crowned Formula 1 World Champion early this season. In a repeat of last year, the DHL Fastest Pit Stop Award will be won by the Red Bull Racing team, which impressed with three world record times in a single season prior to the race on Sunday.

DHL Fastest Lap Award: high tension until the end of season
The DHL Fastest Lap Award was not decided until shortly before the end of the season. “We are delighted that the excitement level has remained high right to the end for the DHL Fastest Lap Award – it is testament to just how attractive this award is,” says John Pearson, CEO DHL Express, who presents the DHL Fastest Lap trophy to Lewis Hamilton in Abu Dhabi.

Six-time world champion Lewis Hamilton is the winner of the DHL Fastest Lap Award before the final race weekend of the season in Abu Dhabi has even taken place after posting the fastest lap five times in the 20 previous races. He also set the most second-fastest laps (four). Charles Leclerc in second place has secured four fastest laps ahead of the final round, and so, could at best only draw level with Hamilton with another fastest lap in Abu Dhabi, in which case, the British driver’s total of second-fastest laps would still have decided the award in his favor.

“Besides the performance in the drivers’ championship, fastest lap times have always been important in Formula 1, which is why our award is coveted by both drivers and teams,” added John Pearson.
After thoroughly considering the matter in consultation with Formula 1, the FIA took that fact into account in this year’s regulations governing the battle for the championship, which introduced a bonus point to be awarded to the driver with the fastest lap time – provided he finishes in the top ten. Its reintroduction after six decades came about after canvassing the opinion of thousands of fans around the world over many months. “Although the bonus point was not decisive for the title this season, it delivered extra excitement and top driving performance,” says Pearson.

With four awards, World Champion Lewis Hamilton is now the leading record holder for the DHL Fastest Lap Award, having overtaken Sebastian Vettel, who was previously level with him on three awards.

The DHL Fastest Lap Award was launched in 2007. It recognizes the driver who consistently achieves the fastest speed and sets the most fastest laps over the course of a season. The award is inspired by success criteria that are equally important in both F1 and logistics for delivering outstanding performance – speed, focus, reliability and precision.

DHL Fastest Pit Stop Award: Aston Martin Red Bull Racing wins again
The race for the DHL Fastest Pit Stop Award, which, as in 2018, goes to the Red Bull Racing team, was decided more clearly this season. It made Red Bull Racing the first team in history to defend the Fastest Pit Stop Award. The team also eclipsed Felipe Massa’s 2016 world record for the fastest pit stop of 1.92 seconds three times during the current season, most recently at the Brazilian Grand Prix, where Max Verstappen came out of the pits in a record time of just 1.82 seconds.

As Official Logistics Partner, DHL has been presenting this award to the team that has consistently been the best pit stop performer since 2015. “The outstanding performances this season impressively prove that Formula 1 is also a team sport,” says John Pearson. “In order to set such record times, the entire team in the pit lane has to work “as one” under extreme time pressure. Red Bull Racing has impressively demonstrated what is possible by racking up a series of records.” Up to the World Championship finale in Abu Dhabi, a total of 621 pit stops had already been made in the 2019 Formula 1 season. Up to that point, apart from Red Bull Racing, only the Williams team had made it into the top ten pit stop times.

Logistics for Formula 1
DHL has been active in Formula 1 for over 35 years and, as logistics partner, ensures that the “race between races” in the elite world of motor racing runs smoothly. DHL ensures the safe and timely delivery of vehicles and replacement parts as well as marketing and hospitality equipment.
to the world’s race venues, relying on an efficient, multi-modal approach comprising air, land and ocean freight solutions. As a pioneer in the area of green logistics, DHL will also assist Formula 1 in implementing a new sustainability strategy that was recently announced.

– End –

50 Years DHL
In 2019 DHL is celebrating 50 years since the company’s founding by three entrepreneurs in San Francisco in 1969. DHL began as a disruptor to the traditional delivery industry, circumventing bureaucracy with an innovative new service to deliver documents by air overnight. Since then, DHL has grown into a globe-spanning family of DHL companies with about 380,000 employees in over 220 countries and territories that covers the entire spectrum of logistics and supply chain services. DHL’s customer-centricity and can-do culture have fueled five decades of innovation – from the DHL 1000, one of the first word processing computers in the world, to using the purpose built StreetScooter, an environmentally friendly delivery vehicle powered by an electric drive and developed by Deutsche Post DHL Group. With the Mission 2050 commitment to reach zero group-wide emissions by 2050, DHL is continuing to be a trailblazer in the logistics industry.
DHL – The logistics company for the world

DHL is the leading global brand in the logistics industry. Our DHL family of divisions offer an unrivalled portfolio of logistics services ranging from national and international parcel delivery, e-commerce shipping and fulfillment solutions, international express, road, air and ocean transport to industrial supply chain management. With about 380,000 employees in more than 220 countries and territories worldwide, DHL connects people and businesses securely and reliably, enabling global trade flows. With specialized solutions for growth markets and industries including technology, life sciences and healthcare, energy, automotive and retail, a proven commitment to corporate responsibility and an unrivalled presence in developing markets, DHL is decisively positioned as “The logistics company for the world”.

DHL is part of Deutsche Post DHL Group. The Group generated revenues of more than 61 billion euros in 2018.
